# ESS LIFTS - AN AUTHORIZED DEALER www.esslifts.com

OP8.5 850 lbs. Capacity Lithium-Iron Order Picker

The OP8.5 Lithium-iron Order Picker is compact, highly efficient and designed for many applications, including narrow aisle. It offers an impressive 850lbs load capacity, zero-turning radius, the ability to pick from both sides of the aisle and is capable of multiple shift operation. Engineered with a low profile, it can easily enter elevators and pass under doorways. Increase your work productivity with this quiet, very low maintenance, ultra-smooth, lithium-iron order picker.

### HIGH PERFORMANCE AND HIGH EFFICIENCY

The OP8.5 is equipped with a Curtis controller, allowing it to lift, travel and steer simultaneously, while maintaining smooth and safe operation. Dual drive AC motors paired with electric power steering provide superior maneuverability, high performance and low operating/maintenance costs.

#### **GREAT VISIBILITY**

Adjustable front shelf can be raised and lowered to ensure operator's field of view is not obstructed.

#### INTELLIGENT. SAFE. RELIABLE.

LCD display shows safety warnings, speed, steering angle and fault codes for easy operation and troubleshooting.

Keyless PIN code lock or RFID card access simplifies access when several users operate one truck.

Left and right multi-function handles can be customized and provide simultaneous lifting, traveling and steering. Handles are equipped with operator presence buttons to ensure safe operation.

Side lights and headlight provide excellent visibility to operator even in poor lighting conditions. Vehicle is also equipped with a buzzer, warning light, rear light and safety blue light.

## SPEED AND DECELERATION

Proportional hydraulics provide smooth lifting. The working height can reach 16.4 feet, allowing operator to collect materials from the 3rd level of rack. Driving speed reduces with the increase of height, ensuring safe and stable operation.

Travel speed 3.8mph
Lifting height below 19.6 inches

Travel speed 2mph
Lifting height between 19.6-59 inches

Travel speed .8mph Lifting height between 59-118 inches

#### LONG LASTING AND SAFE LITHIUM-ION POWER

NOBLELIFT uses Lithium-Iron Phosphate batteries, the longest lasting and safest lithium-ion battery available. Our lithium-iron batteries are equipped with a Battery Management System (BMS), thermal management system, and an automotive-grade DC highvoltage control system. BMS manages charging and discharging data to ensure safety throughout its life cycle.

OP8.5 Lithium-Iron order pickers have a 3 year or 6,000 hours warranty on the lithium-Iron battery.

#### ADVANTAGES OF LITHIUM-ION POWER

Fast-charging maintenancefree Lithium-Iron battery is fully charged in 1-2 hours. Battery can be opportunity charged during user breaks and during shift changes which allows the truck to run continuously through multi-shift operations. No battery changes are necessary.

24V/80Ah Lithium-iron battery has connection terminals with screws and is protected inside the steel case.

Built-in 24V/25Ah charger provides added convenience.

#### LITHIUM BATTERY ADVANTAGES

**Productivity** -

Memory Effect

#### **Lead-Acid Battery**

Lower fleet availability -Work is interrupted because battery needs to be fully charged before next use

Periodic battery replacement

Service Life

**Lithium Battery** 

100% Fleet availability -Opportunity charging allows battery to be charged in between use

Batteries last 3 times longer and do not need to be replaced

Outsourced or in-house maintenance personnel required

Ongoing **Maintenance** 

No maintenance cost

8-10 Hours - 2 or more batteries per lift truck

Charge **Duration** 

1-2 Hours - 1 Battery per lift truck

Build an expensive battery room with ventilation **Battery** 

No battery room needed

Releases hydrogen while charging - Can result in explosion - Acid burns can happen during maintenance

**Substances** 

**Dangerous** 

No dangerous substances

Power loss

No power loss - Reduces energy consumption by 35%

# A GLOBAL LEADER

NOBLELIFT is a global leader in Lithium-ion Technology. We manufactures more than 200 categories and around 30 series of each product. Our products are designed to meet different application demands and are well accepted by our customers in more than 100 countries and regions in Europe, America, Asia, Africa and more.

**Products include:** sit-down forklifts, narrow aisle forklifts, walkie-stackers, order pickers, electric pallet trucks, scissor lifts, tuggers, scrubbers, lift tables, manual pallet jacks and more.

**FORKLIFTS** 

**NARROW AISLE** 

STACKERS

POWERED PALLET TRUCKS

SCISSOR LIFTS

TUGGERS

**SCRUBBERS**
